

GET YOUR AIR CYLINDER UNDER CONTROL !

Installing the Deschner Kinechek speed regulator gives you the control you need over your air-powered devices. Kinecheks deliver superior performance over simple air control valves by regulating the machine movement with extraordinary precision over the entire stroke. Easy to install. Simply set the adjustable control knob and watch your operations run smoothly year after year, that's it! The Kinechek is designed to be leak-proof for millions of cycles. Like Deschner's reputation for excellence, tens of thousands of Kinechek speed regulators are still going strong after decades of service.

EXAMPLE OF A KINECHEK USED TO PROVIDE CONSTANT FEED RATE FOR SLOT CUTTER.

*Most Kinechek models are available for immediate delivery.
